Info Sheet Lohtragon®

K REACH | South Korean REACH

Several products within the Dr. Paul Lohmann® product range are affected by the various REACH legislations, including the metal salts synergized under the Lohtragon® brand. REACH stands for the Registration, Evaluation, Authorization and Restriction of Chemicals. The main objective of the chemicals legislation is to ensure a high level of human health and environmental protection.

Initially REACH is a regulation of the European Union (EU REACH), which has been followed by further country legislations, such as Great Britain (UK REACH), Turkey (Turkish REACH | KKDIK), and Ukraine (UA REACH).

The **South Korean REACH legislation, known as K REACH**, refers to the secure usage of chemical substances that are produced in or imported into South Korea and is governed by the South Korean Ministry of Environment (MoE). Dr. Paul Lohmann® has successfully appointed **its Only Representative (OR)** for K REACH requirements. We are fully prepared to support your K REACH needs, **ensuring compliance with all relevant (pre-) registration deadlines**:

Regulatory compliance and safety

- ◆ Access REACH-compliant products and meet regulatory requirements
- ◆ Rely on our established REACH expertise
- ◆ Benefit from comprehensive REACH services across the entire supply chain and all relevant regions
- ◆ Reduce the risk of market limitations or legal penalties
- ◆ Build customer trust through demonstrated compliance

The **K REACH registration deadlines** are structured based on the substance category and the annual volumes. For existing chemicals the following timeline applies:

- ◆ 31.12.2021: Amount of $\geq 1,000$ tons/year is manufactured or imported as such or in mixtures or articles*
- ◆ 31.12.2024: Amount of ≥ 100 tons/year is manufactured or imported as such or in mixtures or articles
- ◆ 31.12.2027: Amount of ≥ 10 tons/year is manufactured or imported as such or in mixtures or articles
- ◆ 31.12.2030: Amount of ≥ 1 ton/year is manufactured or imported as such or in mixtures or articles

For new chemicals a direct notification option applies, followed by a registration obligation for volumes ≥ 1 ton/year.

In case of any K REACH requirements please communicate your concerned products and expected volumes, so that we can check the individual (pre-)registration status and general K REACH frame, in order to consider the concerned substances for K REACH registrations.

We look forward to it – our REACH department provides full service for you.

Beyond K REACH

Do you need more information about our EU REACH registered metal salts and on UK REACH, KKDIK, UA REACH and K REACH? Access our [dedicated REACH flyers](#) or get in touch with us.

For full access to the Dr. Paul Lohmann® product range of more than 300 metal salts, please have a look at the [product catalog](#).

*The registration deadline differentiates also the hazards status of substances. As this status does not apply for any Dr. Paul Lohmann® product, these cases are no further considered on this info sheet.

Lohtragon® – A Brand of Dr. Paul Lohmann®

For over 135 years, the company Dr. Paul Lohmann has been able to establish and maintain its leading position as an international manufacturer of mineral and metal salts that meet the highest quality standards. The product range includes over 400 different salts, from Aluminum to Zinc, in a total of over 7,000 different specifications. Dr. Paul Lohmann® supplies its specialty salts worldwide to customers in the pharmaceutical industry, food sector, food supplements, cosmetics and – under the Lohtragon® brand – to customers in industrial applications.

Lohtragon® stands for unique competences in manufacturing, optimizing and developing metal salts for a broad variety of industrial market segments. Established in diversity, tailor-made for you, your application and your process - our solution for your challenges!

Established Products

By choosing Lohtragon® products, you benefit from direct manufacturer sourcing and our "Made in Germany" quality and reliability promise.

Joint Developments

From concept phase to tailored product optimization, we are your partner to solve any development challenge.

Expert Services

Rely on services from our application technology, regulatory affairs, logistics, quality departments and more. We fully support you in all areas.
