Info Sheet Lohtragon®

UK REACH notified Metal Salts

REACH stands for the Registration, Evaluation, Authorization and Restriction of Chemicals. The main objective of this chemicals legislation is to ensure a high level of human health and environment protection.

Initially REACH is a regulation of the European Union (EU REACH). UK REACH is a regulation that applies to the majority of chemical substances that are manufactured in or imported into Great Britain (England, Scotland, and Wales). KKDIK is the Turkish regulation covering the Turkish Ministry of Environmental and Urbanization (MoEU) Regulation on chemicals and their safe use.

Several products within the Dr. Paul Lohmann® product range are concerned by the various REACH legislations, including the metal salts synergized under the Lohtragon® brand.

Besides our range of more than 100 EU REACH registered metal salts (Regulation (EC) No 1907/2006), we intend to register also various products according to the new UK REACH legislation.

Considering the time planning for the UK REACH process and related deadlines, we have successfully entered the recent transitional period of the Downstream User Import Notification (DUIN). Please find in the following the overview of our more than 120 DUIN notified metal salts according to UK REACH.

In case of need for imports into the Great Britain according to UK REACH, please communicate your expected yearly volumes, so that we can consider them during the next process phases for UK REACH registrations.

Our REACH department provides full service for you.

Lohtragon® – A Brand of Dr. Paul Lohmann®

For over 135 years, the company Dr. Paul Lohmann has been able to establish and maintain its leading position as an international manufacturer of mineral and metal salts that meet the highest quality standards. The product range includes over 400 different salts, from Aluminum to Zinc, in a total of over 7,000 different specifications.

Dr. Paul Lohmann® supplies its specialty salts worldwide to customers in the pharmaceutical industry, food sector, food supplements, cosmetics and – under the Lohtragon® brand – to customers in industrial applications.

Lohtragon® stands for unique competences in manufacturing, optimizing and developing metal salts for a broad variety of industrial market segments. Established in diversity, tailor-made for you, your application and your process - our solution for your challenges!

Established Products

By choosing Lohtragon® products, you benefit from direct manufacturer sourcing and our "Made in Germany" quality and reliability promise.

Joint Developments

From concept phase to tailored product optimization, we are your partner to solve any development challenge.

Expert Services

Rely on services from our application technology, regulatory affairs, logistics, quality departments and more.
